Subject: Application for software engineer position.

Respected HR teams,

Greetings of the day. I came across your advertisement in the Times of India regarding the opening for the position of Software engineer at Infosys, Bangalore, and I would like to apply for the same.

I have developed proficiency in languages such as C++, Java & Python. Through academic projects and practical assignment, I have gained experience in problem-solving, debugging and also familiar with basic concepts of web development.

In addition to my technical skills, I am a quick learner, adaptable and I am particularly drawn to Infosys because of its reputation for fostering innovation, continuous learning, and delivering impactful technology solution.

I would be grateful for the opportunity to discuss how my skills and enthusiasm align with your team's. Please find my resume attached for your review.

Thank you for your time & consideration.

Sincerely,

V. Priya
